

SPECIAL NOTICE -

Critics of Dr Clo are welcome to prove with evidence that Dr Clo is harmful.

Dr Clo Sterilization & Deodorization Stick has been in the market for more than 5 years and has gone through sufficient tests and certifications to be classified as a consumer-safe product.

Dr Clo Sterilization & Deodorization Stick emissions of ClO₂ is around 0.02ppm, which is well below the acceptable limit of the 0.1ppm guideline by the World Health Organization (WHO) and the United States Centre of Disease Control (US CDC).

Dr Clo Sterilization & Deodorization Stick is the only gel based ClO₂ device which has qualified to be registered in the United States Food and Drug Administration (US FDA).

Dr Clo Sterilization & Deodorization Stick has been awarded with the European Union Restrictions of Hazardous Substance (EU ROHS) certification.

Dr Clo Sterilization & Deodorization Stick has also been tested under the strictest European Union Registration, Evaluation, Authorisation and Restriction of Chemicals (EU REACH) guidelines, proving the product to be non-carcinogenic and non-toxic.

Dr Clo comes with worldwide coverage of product liability insurance by Samsung Fire & Marine Insurance - with no claims whatsoever after selling millions of sticks.

Other Lab tests done include:

Fungi Reduction Test - gas chamber
Bacteria Sterilisation Test - gas chamber
Harmful Gas (Substances) Test - gas chamber
Anti-Bacterial Test - test chamber
Covid-19 Virus Test - virucidal activity test

More reports on a Covid-19 virus test conducted in a gas chamber and a H1N1 test will be released in English in due course.
